Plan it right.
Get it approved.

Project Delivery Lifecycle (PDL) support for state departments, from ideation to project close. PDL cuts required artifacts from about 104 to 21, and Radian delivers every one.

THE RADIAN DIFFERENCE

Radian has the team of PDL experts.

Radian is helping the State of California move a large-scale, approximately $500 million project through its Project Delivery Lifecycle (PDL).

IDEATION + CH 1

Business Readiness

Sizing and complexity assessments, charter, objectives, risks and funding.

CH 2

Solution Evaluation

Market research, requirements, as-is and to-be, solution design.

CH 3

Baselines

Cost, schedule and requirements baselines, vendor details, project plan.

CH 4 + 5

Iterations & Close

Iteration planning, value reports, change approvals and closeout.

DELIVERABLES

Project workbook chapters, charter, requirements, schedule and cost baselines, FAW support and CDT submittals.

SERVICES

PDL readiness assessment, artifact development, complexity assessment, procurement planning, IV&V, change management, GenAI project support.

CREDENTIALS

California CMAS and TDDC IT-MSA contract holder. CMMC Level 2 certified. Anthropic Certified Partner. Serving the public sector since 1998.

PDL is a California Department of Technology process. Statistics from CDT's PDL Enhancement briefing.
